TECHNICAL SUPPORT AND SERVICES

If you have questions about installing or using this software, check this and other documents first - you will find answers to most of your questions here or there. If you need further assistance, please contact us.

MANUAL

Welcome to the Data Burner Wizard dialog appears.

Data Burner Wizard	
	Welcome to Data Burning Wizard This wizard will guide you through Data CD/DVD/Blu-Ray/HD-DVD disc creation process using StarBurn SDK.
	Click Next to continue or Cancel to exit.

Press the **Next** button to continue.

If the disc hasn't been inserted into the drive yet please insert it and press **Refresh** button. Choose a burner from the list (the one you have inserted disc in).

Product	HD-DVD burning Vendor	Revision	Media	Size, MB	Labe
DVD-RW DVR-110D	PIONEER	1.11	CD-RW	Blank	Labe
DVDRW SOHW-1673S		JS0D	DVD+RW	Blank	
<		1111			

Press the **Next** button to continue.

Select the file system type to create. The default file system type is **ISO9660 + Joliet UNICODE name extensions**. The other available file system types are: **ISO 9660 Level 1** and **ISO 9660 Level 2**.
